## WEEK 11

Matthew 7:24-29

The endocrine system sends messages to the rest of the body. What can we build our life and choices on?

Are there some similarities between the role of this system in your body and how much we need Jesus to be our foundation? What is their importance?

## WEEK 12

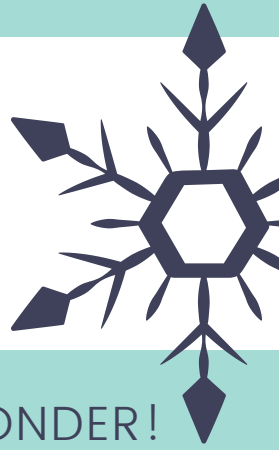

Hebrews 10:19-23

Purposes of blood are transportation, protection, communication and regulation.

In the passage, what do we learn about what Jesus' blood did for us? How do we feel about that? Protected? Able to access Him because of Jesus? Being able to confidently approach his throne? Based on this passage, what do we know about how we can approach God?
